

Our Quality

UNIT TEST products are made to the most stringent quality control. Concrete test machines are tested in accordance to the "British & International Standard". We are awarded the accreditation ISO 17025 for Calibration and Testing. All products carry a full warranty and after sales service. At Unit Test we strive for excellence in quality and service.

Force calibration in Hong Kong.

Machine performance test in U.K during year of 1993 under NAMAS.

Our International Participation

Overseas exhibition

UNIT TEST products are already exported globally. Our objective is to position UNIT TEST as a leading distributor of test equipments in the international market. Currently products are exhibited at leading international trade fairs and will continue so to make its presence felt.
