

CC 1

Petrol-Driven Core Drilling Machine

3HP 4-Stroke engine with speed 180 - 600 rpm, supplied complete with water swivel pump. The unit are fitted with adjustable rubber base wheels for easy transportation and can be fold up for firm vertical position drilling or coring without any vibration or to avoid damage the core specimen. The maximum core diameter are up to 150mm and deep 300mm, and supplied without diamond core bit and tube.

Accessories

CC 1/1

75mm dia diamond Asphalt/Concrete core bit

CC 1/2

100mm dia diamond Asphalt/Concrete core bit

CC 1/3

150mm dia diamond Asphalt/Concrete core bit

CC 1/4

75mm dia tube 300mm(L)

CC 1/5

100mm dia tube 300mm(L)

CC 1/6

150mm dia tube 300mm(L)

CC 1/7

75mm dia Coupling adaptor

CC 1/8

100mm dia Coupling adaptor

CC 1/9

150mm dia Coupling adaptor

■ Coring Accessories

■ CC 2

CC 2/A

Electric Driven Drilling Machine

With Gear motor and Speed 1000 rpm, Maximum core up to 145mm diameter deep 400mm, Light weight duty type.

Power: 240V 50Hz 1pH, 5 Amperage.

CC 2/B

Electric Driven Drilling Machine

With Gear motor and Speed 780 rpm, Maximum core up to 205mm diameter deep 510mm, Light weight duty type.

Power: 240V 50Hz 1pH, 9 Amperage.

CC 2/C

Electric Driven Drilling Machine

With Gear motor 2 Speed control 300/700 rpm, Maximum core up to 355mm diameter deep 620mm, Heavyt duty type.

Power: 240V 50Hz 1pH, 5 Amperage.
